**When you have a good thing going, you stick with that good thing!**  
**We just realized that Armor has been selling Tymco Street Sweepers, along with Parts and Service, for over 30 Years! Wow! Look at us!**

**What can we tell you about TYMCO? They have been around for more than 50 Years - just like Armor!**

**Longevity in our industry means a whole lot!**

We will continue to offer all that TYMCO has to offer.

TYMCO introduced the **Regenerative Air Sweeper**, which uses a controlled blast of air to dislodge debris from surfaces. All debris picked up by the pick-up head is directed up the large diameter heavy duty suction hose into the hopper. Regenerative Air means a TYMCO never exhausts polluted air into the atmosphere like a vacuum sweeper.

**Sweeper Models range from powerful street cleaning 600<sup>®</sup>, dustless DST-6<sup>®</sup>, high speed airport runway HSP<sup>®</sup>, high-dumping 500x<sup>®</sup>, mid-sized 435<sup>®</sup>, dustless DST-4<sup>®</sup> and parking lot 210<sup>®</sup> and 210h.**

**We are looking forward to many more years of continued partnership!**

Look Who's New to Armor!

A Hearty "Welcome Aboard" to Kyle Watkins, our New Regional Sales Manager for Southern Illinois!

Kyle will be working in Southern Illinois, meeting the needs of our Sewer Equipment, Cameras & Nozzles, Leaf/Debris Collection, and Refuse customers.

We are excited to have Kyle's work experience and expertise in the Sewer Equipment and Street Sweeping industries.

So much good stuff comes into play with Kyle covering this IL territory - he has a bundle of experience, and we know our current & potential customers are going to find him such a great resource!

When you see Kyle, please WELCOME him to our Armor family!

We have a New Owner!

MH Equipment Company took over ownership of both of our Armor locations in October. This is a good move for both parties, and now Armor is part of a larger organization that can go that extra mile for its customers and employees!

More details to follow! (happy dance!)

MH Equipment is in Peoria, IL. Check them out at [MHequipment.com](http://MHequipment.com).
