Armor has a NEW Product Line!

Armor is proud to announce that we are now offering Sales, Parts and Service for **SEWER EQUIPMENT**.

We have entered into an agreement with Sewer Equipment to bring sewer trucks and trailer jettors, along with a full line of replacement parts to our current customers, and our potential customers in Missouri, Southern Illinois, and Kansas.

Sewer Equipment has been in business since 1941 and offers high pressure, high volume truck and trailer-mounted sewer jettors, hydro excavator trucks, combination sewer cleaners, water recycling sewer cleaners, bucket machines, easement machines, industrial vacuum trucks, air excavators, rodders, and catch basin cleaners.

Sewer Equipment built its first 747 Trailer-Mounted Jetter with a rotating hose reel in 1993. Throughout its evolution, the 747 series of jettors has been the industry standard by which others are judged. Whether it is longevity, operator safety, overall value, or options that you are looking for **We can now help!**
