## Newsletter

5th Edition  
SWEEPERS ONLY

*Hello 2020!*

Check out all that we  
have to offer at  
[armor-equip.com](http://armor-equip.com).

### Featuring: *Tymco's Model 210 Sweeper*

**The Model 210 is utilized for Parking Lots:** When other parking lot sweepers are too large, and small outdoor ride-on or walk-behind sweepers have proven inefficient, time-consuming and maintenance intensive, the **Model 210** is your sweeper!

**There are a lot of parking areas that need to be swept and more times than not, it is a parking lot next to an apartment complex or a parking garage in between a school or condo.** Sweeping parking lots and garages located near areas with noise pollution restrictions are not a problem when your **Tymco Model 210** is equipped with **Sound Reduction Engineering (SRE®)**.

The **SRE** equipped **Model 210** under normal sweeping conditions has a noise level of approx. 70 dB(A), effectively allowing you to hear primarily the truck engine.

#### **Model 210 Perks:**

Patented centrifugal dust separator keeps the fines and dust inside the hopper. No filters or baffles to clean or replace.

Powerful RAS blower.

Convenient inside-cab, operator friendly sweeper controls. Gauges and controls are illuminated for better night visibility.

Patented gutter broom – with steel diggers or poly wafer – provides more cleaning power with less maintenance.

Powerful hand hose for hard to reach places.

Heavy duty hydraulic dump cylinders for high dumping those heavy loads.

Heavy-duty steel hopper for long-term durability.

Easy to open hydraulic dump door lets your dispose of bulky items quickly and safely.

#### **Additional Model 210 Perks:**

Power Unit is powered by a turbocharged 56 HP Kubota auxiliary engine.

Slide-out screen increases clean out efficiency.

Heavy-duty wrap-around rear bumper and fenders for sweeper protection.

Time-tested, heavy duty pick-up head propels a controlled jet of air through the blast orifice creating maximum pressure and powerful suction across the entire width of the pick-up head.

Storage box has large 14.5 cubic foot area with easy access storage for brooms, shovels and tools (cabover model only).

**Model 210** can be mounted on cabover or conventional cab chassis.

**Two (2) super convenient locations:**

**1368 Lonedell Rd, Arnold MO / 450 N. Lindenwood Dr, Olathe KS**
