

# BIGTRUCK<sup>®</sup> RENTAL

FEATURING 

**BIGTRUCKRENTAL** is the leader in **FRONTLOADER, SIDELoader, REARLOADER** and **ROLL-OFF** refuse truck rentals in North America, all backed by a nationally serviced HEIL fleet and superior personal service.

## WHY RENT?

Big Truck Rental is the perfect solutions provider for many reasons:

- Late Delivery on New Trucks
- Cash Flow / Financing
- Startup / Expansion Needs
- Scheduled Maintenance
- New Technology
- Rent-to-Purchase Options
- Long Term Rentals
- Trucks Down
- Bid Additional Routes
- Seasonal Demands
- Storm Cleanups

## RENT IT, TRY IT, PROVE IT, BUY IT... With Big Truck Rental.

### RENT

- A Long Term Rental strategy lets you remain current and competitive by “trading up” to a more advanced truck as your needs change.
- Start a new route or contract without a strain on your cash flow.
- Create more credit and build equity in your truck every month... helping you with the opportunity of future ownership.
- Delivery within 24 hours in most cases.

### TRY

- Rent a demonstration truck to “trial run” new technology without the upfront investments in time and money.
- Try alternative fuels, such as CNG, before you decide on converting your entire fleet.
- Drive a “test truck” during your next bidding process to be more competitive.
- Let your driver try the latest camera systems, GPS technology, on-board scales, and other safety advancements and technology.

### PROVE

- Test future economic and functional feasibility of the equipment, and also gauge driver feedback.
- Measure any improvements or benefits to your business before deciding to go “all in” on a fleet-wide investment.
- Set the timeframe required for determining your ROI, and we’ll recommend a New Technology Pilot Program that best fits your needs.

### BUY

- If you decide to make an investment to buy the truck, we will work with you through the final steps of our Rent-To-Purchase process.
- Our goal is to get you that truck with the newest technology you want, while offering you the simplest Path to Ownership possible.
- Once off-rent, our premium fleet of low-mileage, late model, lightly used garbage trucks are sold through [routereadytrucks.com](http://routereadytrucks.com) and available for purchase.
